ABOUT PROCREATION

With a mother-company (Metal Hand Craft) extensively experienced in the handicraft metal industries in the local Egyptian market with more than 45 years of experience since 1978, ProCreation Integrated Solutions has emerged. The company specializes in the implementation of all decorative works in various materials and operations, as it combines the use of modern technology, which is the key to executing the most difficult designs with high technicality worthy of the level of projects assigned to the company. This allows it to have a great ability to compete inside and outside the Egyptian market.

ProCreation has contributed to the implementation of many projects with major contracting companies as listed later.
